

# Invoicing Methods with MasterCard.

## Transparency Adapted to Your Requirements

Our flexible billing system allows you to select the invoicing method that best suits you and your company. You can choose between centralized or decentralized billing.

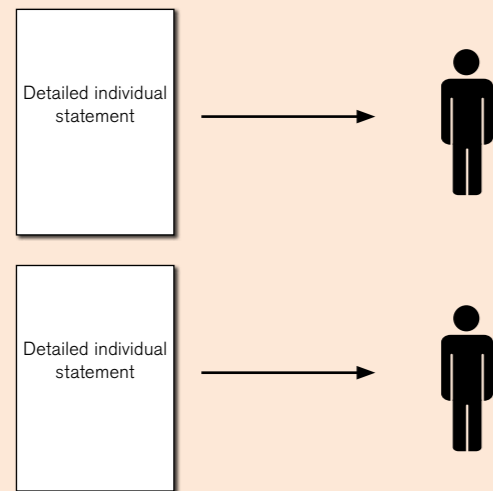

### Option 1: Centralized Invoicing

#### Collective Invoice to Company

Your company receives a monthly invoice for all corporate credit cards.

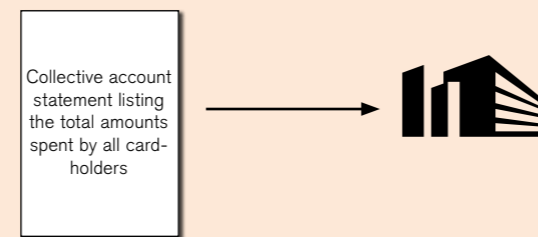

#### and Individual Statement to Cardholders

Each employee with a corporate credit card receives a statement of his/her spending transactions for information purposes.

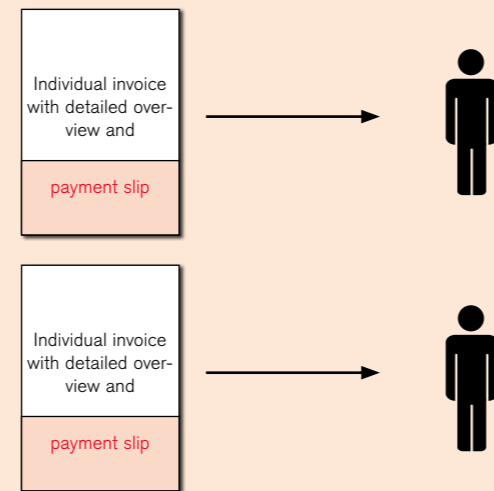

### Option 2: Decentralized Invoicing

#### Collective Account Statement to Company

Your company receives a statement of all spending transactions carried out with the corporate credit cards for information purposes.

#### and Individual Invoice to Cardholders

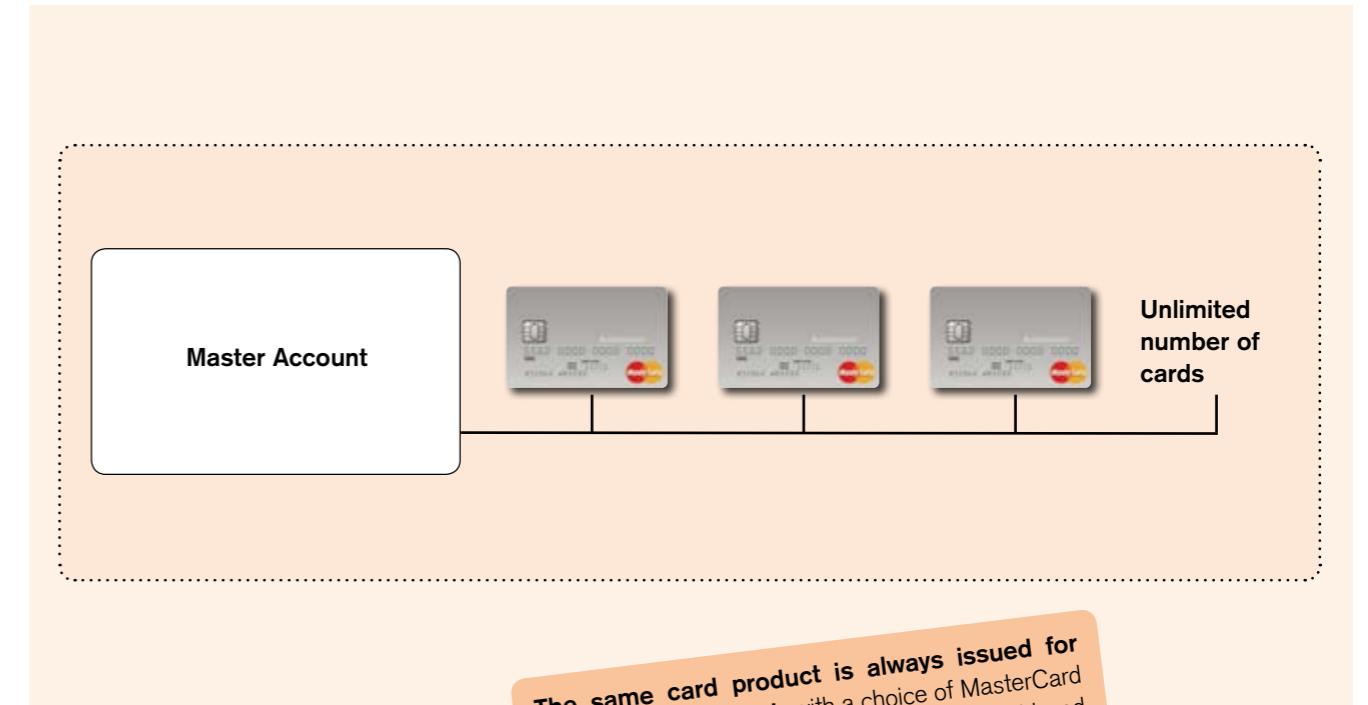

Each employee with a corporate credit card receives an individual invoice.

# The Master Account with MasterCard.

## The Master Account – the Basis for Every MasterCard Business Card

Whichever invoicing method you opt for, all MasterCard Business Cards requested by your company are managed via a single master account.

**The same card product is always issued for each master account, with a choice of MasterCard Business Standard, MasterCard Business Gold and MasterCard Business Euro.**
